

PRESS RELEASE

September 15, 2021

Battle Starts Now

FNSS Plastic Battle Armor Modeling Show that started its journey with the tagline “Build, learn, enjoy, share” 14 years ago will be held online. The organization, which distinguishes itself by being the only scale modeling competition held under the sponsorship of a defense company, can be followed on fnssplasticbattle.com website and FNSSPlasticBattle Armor Modeling Show (<https://www.facebook.com/FNSSPlasticBattle>) Facebook page.

To participate in the competition, modelers can select the relevant competition category and upload pictures of their models on fnssplasticbattle.com between October 1st and November 15th, 2021. An international jury with members who are experts in modeling will evaluate the works. One of the seven category is Junior Modelers which is open to participants who are or under the age of 16. Competition will be open to participation for all modelers around the world and the winners will be announced on fnssplasticbattle.com and Facebook page on November 29th, 2021.

You can access detailed information and competition rules for the 14th FNSSPlasticBattle competition on fnssplasticbattle.com and follow the latest announcements and posts related to the competition on FNSSPlasticBattle Armor Modeling Show Facebook page.

FNSS Savunma Sistemleri A.Ş.

Protected Mobility at Your Service!

A Globally Trusted and Respected Turkish Defence Company

FNSS is a globally recognized land systems company that specializes in designing and producing wheeled and tracked armoured combat vehicles as well as combat engineering vehicles, turrets and sustainability solutions. As the solution provider of choice of users in various countries, the Company has delivered so far more than 4000 armoured combat vehicles worldwide.

Adding Value through Innovative Solutions

Thanks to its competent and dynamic workforce, FNSS offers innovative solutions during the entire product life cycle; from the design phase to the end of service life. Ever since the first roll-out in 1990, the Company has continuously improved its vehicle design and production capabilities in line with the requirements of its users. FNSS's KAPLAN class tracked armoured product family and PARS wheeled armoured vehicles are poised to shape combat vehicle trends well into the 21st century.

Meeting User Expectations

FNSS designs and develops customized solutions to meet the requirements of each user.

The key to FNSS' success in delivering tailored products within requested time frames lies in its flexible approach to project management. This is complemented by its ability to orchestrate an extensive supply chain and a wide range of global partnerships.

FNSS has successfully engineered and supplied products addressing unique requirements such as Amphibious Armoured Earthmover, Rapidly Deployed Amphibious Wet Wide Gap Crossing system and KAPLAN MT (Medium Weight Tank). These vehicles are the most recent samples of FNSS's user-centric business model that focuses on understanding the exact requirements and tailoring precision solutions.

Building the Future with Confidence

FNSS products have been tested in stringent conditions and have proven themselves in combat missions. FNSS views user satisfaction as a permanent concept, addressing new needs that may emerge throughout the product's lifecycle and offers sustainability solutions that extends the overall lifecycle. FNSS also makes a difference by generating significant value for its international users through localization packages that include employing local labour, establishing domestic supply chains, and providing in-country training and technology transfer. Building upon its 30-year heritage in the defence industry, FNSS continues to add value to its users by creating innovative solutions.
